

Williams Paediatric Seminars 2013

Four weekend seminars – Southampton, UK

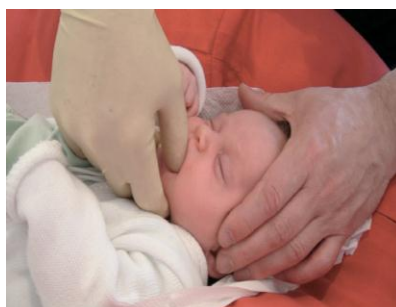

**Learn the hands-on skills for chiropractic paediatrics
With Dr Steve Williams, DC, DICS, FICS, FCC (paed), FCC (cranio), FBCA**

The seminar is focused on the development of practical hands on skills in the treatment of the pregnant female, infants and children but with a comprehensive set of techniques that can be used across your practice, for patients of all ages.

Dr Williams is returning to Southampton after yet another successful seminar series in 2012 and has previously lectured extensively in the USA, Australia and Europe on the subject of paediatrics and craniopathy. He helped to develop and teach the MSC APD Chiropractic Paediatrics at the AECC and authored the book "Pregnancy and Paediatrics: A Chiropractic Approach"

<p>Weekend 1: Pregnancy and Birth Trauma Saturday 7th & Sunday 8th September 2013</p> <p><i>Pregnancy and the birth process; management of pain syndromes and visceral disorders of pregnancy (hands on), intrauterine constraint (hands on), corrections of malpresentations, birth trauma.</i></p>	<p>Weekend 2: Neonatal Examination, Spinal & Cranial Correction Saturday 28th & Sunday 29th September 2013</p> <p><i>KISS Syndromes, infant spinal examination and corrections, infant cranial examination and corrections, infant extremity examination and corrections. Emphasis is placed on the development of palpation and treatment skills, particularly relating to the infant cranium.</i></p>
<p>Weekend 3: Neurobehavioral Disorders & Plagiocephaly Saturday 2nd & Sunday 3rd November 2013</p> <p><i>From autism to dyslexia: causes, examination and treatment protocols with practical workshops. Differential diagnosis of plagiocephaly: identification of strain patterns and their corrections (hands on).</i></p>	<p>Weekend 4: Treatment of Common Paediatric Syndromes Saturday 23rd & Sunday 24th November 2013</p> <p><i>Diagnosis and treatment interventions: spinal, visceral, extremity, cranial correction, dietary and nutritional supplementation, colic, asthma, cerebral palsy, nocturnal enuresis, otitis media. Hands on practicals for the visceral and cranial components.</i></p>

**Each seminar lasts 12 hours and carries 12 CPD hours.
Limited participant numbers to allow for individual attention and hand skills development**

**Don't miss the opportunity to come to these highly popular and acclaimed seminars –
book early and save money too!**

This popular seminar series has been run for the past eight years in Southampton and has always sold out, with some delegates repeating the following years because they have found it so full of useful techniques. The material is updated every year as Steve develops his work.
