

Scottish Chiropractic Association Seminar

The Art of the Adjustment

Presented by Dr. Tim Young

Saturday 28th April 2018 | 1-7pm

Norton House, Ingliston, Edinburgh

Chiropractic is a science, art and philosophy. A great chiropractic adjustment should be accomplished fluidly and painlessly with speed, finesse and confidence. This is hands-on, step by step workshop on the fundamentals of adjusting. Whether you are an experienced chiropractor wishing to tune up your skills and embrace new ideas or a student or new graduate looking to develop your skills in an intense practical workshop, this seminar will offer information you can use with your patients on Monday morning. Success in practices requires mastery of this specialised skill, unique to the chiropractic profession.

This 6-hour course will include...

- **The assessment and detection of the subluxation**
- **The assessment of set-up, contact points, pre-stress, line of drive and accuracy for the correction of the subluxation**
- **Injury prevention in the chiropractor through careful positioning for the adjustment**
- **The appropriate use of adjusting in the chiropractic practice**
- **The implementation of specific adjustments and protocols in the chiropractic practice**
- **How to communicate the adjustment and care protocols in patient reports**

About Dr. Tim Young

Dr. Tim Young was born and raised in Springfield, MO. After graduating in 1994 from Cleveland Chiropractic School in Kansas City, MO, Dr. Young and his family relocated to Oklahoma City where he began his own practice, Young Chiropractic. Dr. Young is currently the Founder and President of The Oklahoma Chiropractors' Association, Founder and President of the national chiropractic education seminar company Focus OKC, Founder and President of Focus Foundations chiropractic development company and travels around the world teaching his Focus Chiropractic Mastery program that emphasizes specific adjusting technique and patient connection. Dr. Young maintains a mission to serve his community, patients and his profession with love, compassion and gratitude.
