Once the more acute symptoms have been resolved and/or maximum correction has been achieved, many patients choose to visit SCA Chiropractors periodically to maintain or support the improvements made. Many of the causes of spinal problems cannot be avoided in our modern lives and this type of care can be thought of as similar to getting your teeth checked by a dentist or getting your car regularly serviced.

Your Chiropractor will discuss with you how often these check-ups might be appropriate. How long you choose to benefit from chiropractic care is always up to you.
